Good buy

Reviewed in India on 14 June 2025

Style Name: C960 Verified Purchase

Good pitchure quality. Plug and play. Focus can be adjusted. Audio quality is also good but could have been better if noise cancellation option provided. Overall good value for money.

Emeet S600 4k webcam a Good pro webcam

Reviewed in India on 28 April 2025

Style Name: S600 Verified Purchase

EMeet S600 4k is Perfect webcam for video shoot & also for live streaming on Facebook, Zoom and YouTube on your laptop/desktop. Good built quality and can be clipped on Laptop and on tripods. Emeet link software installed helps to adjust the picture zoom & brightness manually as well. Nice coverage, good resolution, optimum adjustment in both dark light & backlight. Value for money

Good Quality Camera

Reviewed in India on 11 April 2025

Style Name: S600 Verified Purchase

Very good Full HD Quality. it is not wide angle covered, not 4K , but the picture qality is very good. it has a shutter, and no dust enters, its overall good camera. I liked it and used for webinar

Goodnfor streaming not for office use

Reviewed in India on 11 June 2025

Style Name: S600 Verified Purchase

Would recommend if you are using it for streaming. For office use get a 1080p camera from the same brand should be more than enough. Nice sensor used in this one.

Poor quality product. DON'T BUY

Reviewed in India on 28 April 2025

Style Name: C960 **Verified Purchase**

The item works good only if the object is away from webcam. I had attended an online exam and showed my id card for verification and it was never clear. I was kicked off of the exam and I had to choose my laptop in built camera which is better than this.

Poor quality product. Please do not buy it!

Sachinkumar B.

Super..

Reviewed in India on 2 June 2025

Style Name: S600 **Verified Purchase**

Worth every penny.. I want to use this for talking head videos, very happy with this one. After trying many budget cameras including action camera, phone camera, cheap point and shoot cameras, I can confidently say this is the best.. Tried it with OBS, and has a lot of settings that can be tweaked to get the results I want.. The zoom didn't work in obs, it works in the emeet link but I think It should work.. the field of view is just perfect.. Autofocus is good and the depth of field uniform that is if you are at a meter and the camera is focused on you the everything behind is in focus so can't get a bokeh effect.. good if you have a posh/decent room if not this should work very well with a green screen.. Overall this is some serious gadget not like cheap or dummy.. Happy with it..

Cecilia Vu

Finally, a webcam that isn't choppy.

Reviewed in the United States on 7 June 2025

Style Name: S600 **Verified Purchase**

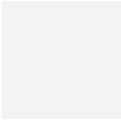

I have to be on camera for work all the time, and I was getting fed up with how my old webcam looked. Even though it was technically 4K, the video was always a bit jerky. I started digging into it and realized the framerate was the real problem, and finding an affordable one that could do 60fps was a challenge.

This webcam turned out to be exactly what I was looking for. It gave me that smooth 60fps video I wanted without me having to spend a ton of money. For my daily work meetings, it's been a huge step up in quality. The picture is fluid, it sits on my monitor without any fuss, and the built-in privacy feature is a great touch.

Pros:

The smoothness is what matters: This is the best part. The 60fps feed makes my video look so much more natural during calls. No more of that subtle, distracting choppiness when I move. I'll take a

It works fine.

Reviewed in the United Kingdom on 15 March 2025

Style Name: C960 **Verified Purchase**

I've given it 5 stars but am a little disappointed that it does not have a zoom function. I assume that I failed to notice that in the blurb - otherwise, it works fine, with a nice crisp image.
